MISSOURI'S MOST IM- PORTANT FARMERS' WEEK

"This will be the most important Farmers' Week ever held in Columbia and the College of Agriculture is preparing to make it so," said Dean F. B. Mumford of the College of Agriculture, University of Missouri. "The Missouri State Board of Agriculture will be with the College of Agriculture and will co-operate with the College in making this event the

greatest annual Farmers' Conference." Dean Mumford also calls attention to these facts about Farmers' Week: That the Farm Bureau Federation will hold its first session here since its complete organization and important policies will be determined. Also that the Rural Life Conference, of which Dean Mumford is president, will hold its session at one of the important night meetings this year. Edmund des Brunner, who had charge of the Rural Church Survey in the

United States for the Interchurch World Movement, will speak at this session and will give valuable information gotten from this investigation. Also Mrs. Jesse Fields Shambaugh of Page county, Iowa, will speak at this session. Mrs. Shambaugh while county superintendent of schools of Page county worked out the most advanced plans upon community organization and recreation of any one in the country. Another speaker at one of the evening programs will be the Rev. Dr. Moses Breeze, who has long been a feature at the Farmers' Week program at the Ohio State University. He will have a vital message for you.

The first session of Farmers' Week, the greatest assemblage of farmers in the United States, will open the evening of January 17 and close with a banquet the evening of January 22. A complete free program will soon be ready to be furnished upon request.

COLLEGE OF AGRICULTURE'S PRIZE HERD OF LIVESTOCK WIN AT CHICAGO

The prize herd of livestock of the College of Agriculture, University of Missouri, again demonstrated its superiority when it captured a series of premiums at the International Livestock Exposition at Chicago the first week of December.

These are some of the most important premiums won: The first prize was awarded to a herd of three Aberdeen Angus steers; first to a junior yearling Angus steer, and first to a junior cross-bred steer calf.

Second prize was won on three steers Get of One Sire class, sired by the College of Agriculture's Short-horn bull, Maxwellton Major.

The sheep also came in for their part of the winnings. First and second prizes in the carcass class for yearling wethers were won by two Southdown wethers bred, fed and exhibited by the College of Agriculture. Second prize was won by a yearling Dorset ram.

Twenty-five well fitted barrows, all except one bred by the College of Agriculture, won prizes in all classes in which these hogs were shown.

St. Joseph Gas Co. granted increase in rates.

Kansas City.—Gallion Iron Works buys 2-story building to expand.

Governor Allen would reduce 30 boards and commissions to 3—and economize. But a legislature dominated by officialism will not permit.

Gallatin.—Hope drainage district forms organization of 50 members.

St. Louis Home and Housing Association formed last year has 109 houses completed or under construction.

HEALTH RESTORED

"My horse was in such run down condition, I thought he would die. After feeding him Dr. LeGear's Stock Powders, he is as well as ever and is now as good looking a horse as there is in any section."—J. C. Huste, Rock-bridge Baths, Va.

Dr. LeGear's Stock Powders build up the body, vitality and muscular energy of your horses and mules, insure more meat with less feed, from your hogs, sheep and cattle, and help your cows produce more and richer milk.

Mr. Huste's small expenditure saved him the price of a horse. Dr. LeGear can also help you. For 28 years as a Veterinary Surgeon and Expert Poultry Breeder he has devoted himself to the compounding of remedies for ailments of stock and poultry. Whenever you have an ailment among your stock or poultry get the proper Dr. LeGear Remedy from your dealer. It must satisfy you, or your money will be refunded.

CADDOCK AFTER MA- TITLE AGAIN

Earl Caddock of Iowa former world heavyweight wrestling champion, the only American heavyweight matman to enlist and fight in France during the war, is on the warpath again. After a rest on his Montana ranch he has started out to regain his title, now held by Joe Stecher of Nebraska. Gene Melady, Omaha stockman, is still managing the former champ.

EXTENSION WORKERS HAVE PROFITABLE WEEK

The workers in the Extension Service of the College of Agriculture, University of Missouri, all enthusiastic over the possibilities of the Extension Service of the College in their counties, attended a School of Instruction at the College of Agriculture in Columbia the week of December 6th. An excellent program of lectures given by visiting speakers, members of the college faculty, and county workers as well as reports on county work and conferences was carried out.

The following is what some of the workers said when asked what they thought the biggest thing the Extension Service of the College of Agriculture was doing in Missouri:

P. H. Ross, Acting Director of the Extension Service, Columbia—The Extension Service has carried the work of the College of Agriculture to 55,000 Missouri homes and the ultimate aim is to carry this work into every home in the state.

Miss Anne Sillers, Butler county—Canning work by the boys and girls' clubs is doing nicely. The canning team from this county won the championship of Southeast Missouri at the Southeast Missouri Fair at Sikeston this fall.

Miss M. May Long, Holt county—Hot school lunch is being emphasized. There are also 125 children in the county carrying milk to school every day. A girl from this county won the championship at the State Fair last fall in hot lunch demonstrations.

Miss Fra Clark, Clay county—Home conveniences are being promoted, especially cooking under steam pressure. Sixty such cooking devices have been brought into this county.

Asbury Roberts, Saline county—The thousand-dollar corn contest. This stimulates the raising of pure seed corn.

W. G. McRuer, Vernon county—A plan to correct the soil acidity. Limestone crushers are to be secured to grind the native limestone and put it on the land.

E. E. Isaac, Clinton county—Organizing elevator associations. Live stock shippers organized and doing business.

C. W. Vetter, Lewis county—Organizing four livestock shipping associations. The association at Ewing has also taken over the elevator and exchange.

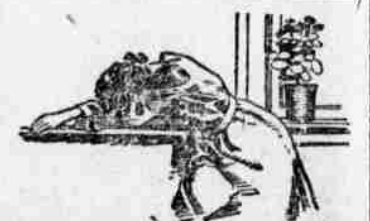

J. A. Krall, Clay county—Organization of the breeders of te county. Introduction of exchange, bringing buyer and seller closer together.

T. F. Luckner, Cole county—Organization of livestock shipping and marketing. The six associations in that county have recently shipped 200 carloads of live stock.

R. J. Friant, assistant in Phelps county—The farmers in this county are a half million dollars in debt and production is the main question so they are planning to crush the native limestone to put on the soil to correct its acidity.

W. F. Flanery, Dunklin county—Melon spraying and control of the fall army worm were successful. The community fair and exhibit at Clark-ton met with hearty approval.

Roy Copelen, St. Francois county—Organizing co-operative buying and selling associations. A car of pure-bred Jerseys were shipped in and sold in the county. This is to stimulate work among boys' and girls' clubs in dairying.

WHEN A WOMAN IS NERVOUS—WORRIED

The lives of most women are full of worry. Men's troubles are bad enough, but women's are worse. Worry makes women sick. It pulls them down, and in their weakened condition they are subject to pains, aches, weakness, back-aches, headaches and dizzy spells. Most women neglect their health, and for this they pay the penalty. Any woman will find that neglect does not pay. A little more attention to health would brighten up her life. If she asks her neighbors she finds that Dr. Pierce's Favorite Prescription benefits a woman's whole system. It not only acts upon the troubles and weaknesses peculiar to women, but is an all-round tonic that braces the entire body, overcoming nervousness, sleeplessness, headaches, dizziness and a run-down condition.

St. Louis, Mo.—"I have taken Dr. Pierce's Favorite Prescription for general weakness and when run-down and suffering with nervousness, and can truthfully say it has done me more good than any medicine I have ever taken, and I find Dr. Pierce's Pleasant Pellets very good to regulate the system. They aid very much in keeping a person in a good healthy state."—Mrs. AMELIA THORN, 4204 John Avenue.

W. F. Delp, Green county—Getting cow testing associations at work. Organizing bulle clubs and making a better sire campaign. Pushing boys' and girls' club work.
